Please note: for reasons of navigational safety, the captain and crew of the boat may decide to modify the cruise itinerary, which is beyond Orbital Travel's control.

Also, due to specific mooring conditions and requirements in some Croatian ports, ships are moored side by side, making it necessary for the clients to cross from one ship to another with gaps in between ships in order to get to the shore. In such cases clients need to take special care when crossing and do this at their own risk. Crew assistance will be given to those needing and requesting it.
